Required Prerequisites

CIT 240, or instructor permission.

Recommended Prerequisites or Skills Competencies

Completion of CIT 256

General Education Outcomes supported by this course

Critical Thinking - Direct

Course Learning Outcomes

Knowledge:

- Summarize techniques used to perform reconnaissance of a security system.
- Summarize assessment tools used to provide effective mitigation.
- Summarize ways to remediate authentication and access control issues.
- Summarize incident response methodologies.

Application:

- Apply reconnaissance techniques to identify potential threats and vulnerabilities.
- · Use data to identify remediation strategies.
- · Implement incident response strategies and best practices.

Integration:

- Evaluate forensic tools based on best practices.
- Discuss incident response strategies as they pertain to documented security breaches.

Human Dimension:

- · Discuss how incident response impacts stakeholders.
- · Collaborate work with others to complete a desired outcome.

Caring - Civic Learning:

- · Explore ethical dilemmas related to security.
- · Discuss corporate responsibility as it pertains to security.

Learning How to Learn:

- Seek out solutions to problems on their own.
- Research available resources on security.
