Recommended Prerequisites or Skills Competencies

HAH 120, HDA 101, HDA 112, HDA 113, HDA 120, HDA 140, HDA 150, HDA 160, HDA 242, HDA 243

Course Learning Outcomes

Knowledge:

- Review key course concepts from all HDA courses and HAH120.

Application:

- Analyze dental assistant information and hands-on procedures.

Integration:

- Connect dental assistant course content from HDA and HAH courses to potential questions on the State and National Board exams.
- Prepare for the State and National Board exams by analyzing potential questions and discerning the correct responses.

Human Dimension:

- Interact with others regarding the rationale for correct and incorrect answers on review exams.

Caring - Civic Learning:

- Relate ethical framework of duties that are legal and/or illegal to perform as a RDA in the State of Michigan.
- Reflect on Michigan Board of Dentistry regulations related to training and identifying victims of human trafficking in health care settings.

Learning How to Learn:

- Identify sources of information related to review units that will assist the student with being successful on board exams.
