Lab Hours

Required Prerequisites

WPT140

General Education Outcomes supported by this course

Quantitative Reasoning

Course Learning Outcomes

Knowledge:

• Understand and use terminology common to the welding trade as defined by the American Welding Society (AWS).

Application:

• Demonstrate proper handling, setup, and adjustment of FCAW equipment.

Integration:

• Demonstrate the ability to complete welds on steel in the flat, horizontal, and vertical positions with the FCAW process.

Human Dimension:

• Students will recognize the importance of weld quality on the health, safety, and welfare of the public.

Caring - Civic Learning:

• Students will be aware of their personal impact on the quality of the projects in which they are involved.

Learning How to Learn:

• Students will evaluate hypothetical applications and determine efficacy of different processes.
